ACADEMIC PROJECT EXPERIENCES

Personal website & GenAI LinkedIn Networking Assistant Self-Directed Internship

July 06 - 31, 2026

- Built a responsive personal portfolio website using HTML and CSS, organizing academic, technical, leadership, and project work and developed a GenAI-supported LinkedIn networking workflow by cleaning and organizing connections data to support targeted outreach and relationship management.
- Managed two independently scoped projects by creating weekly plans, incorporating mentor feedback, researching solutions, and adapting project requirements throughout the internship.

Ann Arbor Hands-On Museum, Information Analysis - Capstone, Ann Arbor, Michigan.

August 2025 - April 2026

- Building 3 dashboards and visualizations in Apache Superset to better help museum understand attendance trends, membership, and donor engagement, supporting data-driven strategic decision-making
- Collaborated with a museum serving over 300,000 annual visitors to translate business needs into actionable data insights, facilitating fundraising, membership retention, and revenue growth strategies

Global Coffee Health, Data Exploration - course project, Ann Arbor, Michigan

August 2025 - November 2025

- Performed exploratory data analysis on a 10,000-record global health dataset (Kaggle) using Python (pandas) to examine relationships between coffee consumption, lifestyle behaviors, and health outcomes

Book club & Face2Face Projects, Barcelona, Spain

May 2025 - June 2025

- Applied user-centered design, prototyping, and business modeling to develop innovative solutions (2 prototypes App) while collaborating with international student, and interdisciplinary setting
